Alternative style from a young man who knows what he wants. 6 MP3 Songs EASY LISTENING: Soft Rock, POP: Pop/Rock Details: Soloist, Chandler Tracy, records all of the instruments while in the studio... (lead vocals, back-up vocals, lead guitar, rhythm guitar, bass guitar, drums, and even the simple things like the tamborine.) Tracy has been experiencing new music sounds and creating them since the age of 9. Although he is still young, he has had a head-start on his musical career and it has been a success so far. He started off learning his favorite bands' songs and slowly walked his way through writing his own music and lyrics. But starting off with just a guitar and an amplifier made it difficult to find the exact sounds he wanted. He started buying effect pedals and linking them together to mix sounds and pinpoint the sounds that he heard in his head. As he played in different places different people have helped him out by giving him ideas, advice, or just a pat on the back and a keep up the good work. But his greatest success was finding a producer to professionally record his music (the music on this page is NOT professionally done, they are just demos. The professionally recorded music will be posted in a few weeks or so.) Chandler just recently met the producer/musician but he has already made a mark on Tracy to drive him forward with his music. Chandler has been writing his own music since the age of 11 but took it seriously at 13. It started off as just writing songs about random, made up things. But then he decided, "I want this to possibly be my career," so he got down to business and started writing for real. He now plays in local areas and hopes to expand musically, and band wise. People who are interested in Dashboard Confessional should consider this download.
