A great companion whether you're in the car or on the couch, this collection from Maine singer-songwriter Don Campbell takes you on a ride across adult contemporary/Americana places, led by world-class vocals and acoustic guitar. 13 MP3 Songs EASY LISTENING: Adult contemporary, COUNTRY: Contemporary Country Show all album songs: American Garage Songs Details: Two years in the making, American Garage has 11 new original Don Campbell songs as well as two covers. Without a flicker of doubt, this collection of songs displays Dons creative range as songwriter, singer, musician and producer like no previous project. This is an adult contemporary album with hints of country, bluegrass and even some rock acoustic sounds...classic American music. Don wrote the original songs over the last year, and inspiration came from subjects as diverse as Pat Tillman (Red, White Blue Heart); to Dads/ (My Old Garage The Hero in Me); to different expressions of love (You Me; Let It Show Beautiful Rain); to the environment (Tilt-a-Whirl) to the phenomenon of the show, American Idol (Heavens Open Up Now) to transition and making moves (Faster Than Lightnin' Cut Off My Ear - two of the most uptempo numbers on the project!) to what ended up being the final addition to the collection...a song called "Finding Your Way Home", inspired by the deaths of two very influential music men, Brad Delp and Bill Chinnock. For the listeners dessert, Don has provided two cover tunes at the end of the CD - a power ballad version of Tom Waits Ol 55 and an uptempo bluegrass version of Meat Loafs Two Out Of Three Aint Bad. Bandmates Andy Happel, Todd Richard Sumner McKane recorded on the project in Don's Maine Tennessee studios over the year. Tonya Shevenell - Executive Producer of the project and Peter Shevenell Graphic Designer of the project. This CD contains 16 page liner notes containing lyrics and song prologues as well as live photos of the band.
