

Mp3 Ej Miller - Can You Hear Me

[DOWNLOAD HERE](#)

EJ Miller delivers powerful Christian lyrics accompanied by jazzy contemporary beats with a R&B flavor. This CD will soon become one of your favorites. 10 MP3 Songs GOSPEL: Contemporary Gospel, URBAN/R&B: Contemporary urban Details: If you ask the question when was it that you fell in love with music? EJ Miller would tell you - the very first time he heard it. EJ Miller was surrounded by music from the day he was born. As a young boy in Winston-Salem, NC., he would meet his first love - Music, listening to his grandfather play the piano while his mother sang in the church choir. At the very tender age of 6, he too sang for the church like his mother. He then went on to sing in his elementary choir where his love for Music began to deepen. His Family moved to Cleveland, Ohio when EJ was 8 years old. Still with the love in his heart, he formed his first group at the age of 11. He would then go on to sing in many talent showcases and local churches. His musical influences where Stevie Wonder, Little Anthony of the Imperials, Smokey Robinson, Eddie Kendricks of the Temptations, Marvin Gaye and the great Ray Charles. In the early 80's, EJ moved his young family to California to pursue his dream. Shortly after arriving in Los Angeles he landed a job in the motion picture industry building sets. He had jams sessions with famous musicians and various bands, like The Doktors and Jeffery Osborne, but he found that gospel music was always his true love. EJ Miller has enjoyed over 20 years of ministering the Gospel in song. Over the years the outreach ministry has gone to parks, fairs, weddings, homegoings, juvenile detention centers and prisons. EJ has been blessed to sing in churches large and small across the nation, from Los Angeles, California to Tampa, Florida. While pursuing his dream he saw the same love and raw talent in his own son, who would grow up to become a composer/producer known professionally as Cadillac Ant. Recently retired from the motion industry EJ can now devote full time to his music. Being a song-writer, producer and engineer, he is able to also help others share the love of God through song.
