HEAD CLINIC

Like a brush on a digital canvass to paint a picture of personal struggle, the beauty of black life and the pitfalls that come with dedicating oneself to the game, this album provides a rare look at hip hop's totality.

12 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: Southern Style Details: Introducing the HNNC...

Hip Hop, still in its metamorphosis phase, is constantly changing! Now in its 10th year of cultural dominance, the pendulum finally swings in the direction of the Midwest; primarily Oklahoma. Like Jay-Z to the "East," Dre to the "West" and Outkast to the "South." The HNNC, veterans in the Midwest rap game, have created an extremely unique type of sound; entitled RETROVIRALMUSIC. RETROVIRALMUSIC is best described as the audio gumbo of several musical genres manifesting itself in the form of rap; HipHop/Blues/R&B/Jazz/Rock&Roll/and Gospel. The HNNC consists of two individuals, BHOTCH and CAP who are as imageless as their musical sound is formless. The first is an emcee who uses his tongue like a brush on a digital canvass to paint a picture of Hip Hop totality, personal struggle, the beauty of black life and the pitfalls that come with dedicating oneself to the game; be it prostitution or preaching. The second is an emcee who, like an architect, effortlessly constructs, with mere sound and thought, the cornerstone of the organization's representation; the soul touching rhyme and music that is both verbal and musical motion. Regardless of how inconsistent the music industry, the HEAD NIGGA N CHARGE control their destiny, from reel to keeping it real.
