

Mp3 Isaac Castle - Industrial World

[DOWNLOAD HERE](#)

Modern Pop/Rock with catchy Lyrics, Sizzling Guitar leads, Scorching Sax, a new sound you just have to hear. The best Musicians in the Albuquerque area are featured here. 13 MP3 Songs POP: Today's Top 40, ROCK: Modern Rock Details: More catchy lyrics, progressive cords and solid Bass lines from yours truly, Albuquerque's original South Broadway Kid. More saxophone, more guest vocals, more percussion. I wrote all the songs, sing on all but 4, play Rhythm Keyboards and Bass synthesizer on all the tracks. My best vocals to date are on the first song "Psychic To Psychic Love". The best Musicians in the area are featured here: Ax Master Blane Sloan is back, Blane does all the Rhythm and lead Guitars on all the tracks. Blane is also the producer, and does all the background vocals, percussion and mixing. Listen to his scorching leads on Strange Attraction, Industrial World, Moonlight Drive, Good Girls, Nina and Internet Party. Blane like myself is also a Huge Dallas Cowboy fan. Guest singer Jon Sickels originally from Odesa Texas, appears on 4 tracks. Listen to his smooth vocals on Moonlight Drive, Better Than Me and I Have Waited. John really shifts into gear hitting some incredible highs on Good Girls. Saxophone player extraordinaire Lee Taylor appears on 5 tracks. Listen to his smooth solos on I Have Waited, and You Don't Love Me Anymore to his blazing solo on 60's Kind Of Girl. So if you like Kenny G, you'll love Lee. Drummer Dennis Painter from Oakland California does all the Drums and percussion. Listen to his incredible congas on Strange Attraction, 60's Kind Of Girl and Nina. Dennis is a rare talent. His drum beats are crisp and precise. Dennis is a class A drummer. There are few out there that are in his league. Lastly Roger Baker originally from Boston. Roger works with Blane at Eagle Rock studios. He is my Co-Producer as well as lead keyboard player. Listen to his soft classical Piano on "I Have Waited" to his sizzling Xylophone synthesizer on Moonlight Drive, you'll feel that you're actually travelling through the Galaxy. Roger also did the photography and graphic design work on this CD. This is a great CD a must

for any music lover. The combination of songs and Musicians makes for a truly musical synergism.

Contact: castlei2002@yahoo.com SONG BY SONG CONCEPTS HOW I CAME UP WITH. 1, Psychic To Psychic Love-I wrote this song in 1998 inspired while I was watching one of My favorite movies Fire Starter which I own on VHS.I thought Raeggae, Raeggae from the get go, inspired by one of My favorite all time groups -"The Police"when I told Blane I wanted a Raeggae style He got it right on the Bullseye. 2.Industrial World- is a Heavy Rocker inspired by the grind of everyday life in the big city and the same old 9 to 5 factory work routine, it's a desire to go to a quieter simpler life in the country, but wait you are too used to living in the ways of the City life so you go back. Blanes Guitar work here makes it sound like Industrial rock and you can hear Dennis strike a steel pipe making it sound like an anvil being pounded.I wrote this song in March of 2004 while recording My first CD. 3.Strange Attraction is a nice Power Pop song highlighted by Blanes dazeling leads,these are among My best lyrics to date.Again I wrote it in March of 2004 while recording My first CD.It was inspired by 2 things a nut case of a Female I was involved with and My horoscope compatible signs; I am a Taurus and My strange attractors are Leo and Aquarius this Female nutcase was an Aquarius , the idea for a song hit Me like a bolt of lightning. 4.I wrote Moonlight drive a long time ago in April 1979, Rogers saucy Xylophone lead gives it an outspace effect. John Sickels is the featured singer. 5.You Don't Love Me Anymore- Another song I wrote a long time ago in August of 1978. It is a Easy listening song featuring Lee Taylors mellow Sax lead,I had originally wanted John to sing it but just never got around to getting it done. 6. I wrote this song in February 1999,I think I got the Idea from the TV show Good Times where this one Guy says to this Girl, don't no one digs you better than Me. I consider this a must for all the Women out there to listen to.I did the vocals on it on the first CD and am letting John redo it on this CD, 7. 60's Kind Of Girl was inspired by the lead singer of one of My favorite groups Lady Kier Kirby of the group DEEE Lite, Dennis's Congas give it that 60's feel and Lee's Sax solo takes off like a Rocket. 8. Good Girls is the only cover song on this CD, it actually is My Male version of Paula Coles "Were Have all The Cowboys Gone" Mine is "Were Have All The Good Girls Gone" I have a copy right for My lyric version but I use the exact same cords and Music from Paula's hit. John Sickels really does a terrific job here hitting some really high notes. I do the narration.I think you'll like My lyric Male version. 9.Nina i wrote this in 2004 it was suppose to be an Instrumental but Roger talked Me into writing some lyrics for it,it features lots of Pecussion,and mostly Guitar and Keybord leads by Blane and Roger. 10.Another song I wrote in My early 20's a romantic easy listening song which has

some nice prgressive cord changes. I let Roger do this one to give it a classical effect, Lee does a great mellow Sax solo I had John sing this one, I had done the vocals on this one in the first CD. 11. Another of the few Hip /Hop songs when I wrote the Lyrics they just seemed to go with a Hip/Hop beat. I wrote it in 1999, inspired by the phrase "Talk To The Hand" and some pretty rude and stuck up Women. 12. I wrote this in June 2005, it's all about looking for love/sex on all these Internet Dating sites. 13. Numbers I wrote in 2004, It's a quiky strange song which describes the perfect Female figure. It was ment to sound strange ,something different to listen to. It features some strange Sax play by Lee per My request. I need sales to get My music carrer on track. You need to listen to this CD on a good stereo system to get it,s full affects. I sold My 79 Porche 928 to record this CD ,that's how good I thought these songs were. Thank you for listening and I hope you like this 2nd CD of mine. Please I need sales not hits. Thank You Read more about Me in My "Resistance IS Futile" BIO Please I need sales not hits this CD cost Me a lots of money to make.
