The world is moving at an average of 1,040 mile per hour, in the city of Los Angeles that speed is ten times as fast for young street athletes trying to outrun the obstacles stacked against them. To survive the warped spin of the hustler's life you must be trained and focused to think, speak, and react like a lightning bolt. The RACE is for your life and the KRAZIER you are; the better. KRAZY RACE, born Mark Ramirez, has been able to survive the darkness and give that darkness a beat deep enough to reverberate through the cement of the streets he's still pounding into the promise lands. although the speed of his race can only be compared to the acceleration of his delivery on the mic, KRAZY RACE is a man who knows it takes time to build a successful sound not limited to regional politics or gang labels. KRAZY RACE is an emcee trained in the art of building songs that don't stop in your head when the CD does. He is an artist who recognizes the necessity of patience in an industry where all too many burn their dreams out in a flash of misdirected aspiration. KRAZY RACE is a craftsman, one who is never content to settle for the slice of the shine, one man ready to take on the UNIVERSE, always outrunning his own best time. From chamber strings to violins, heavy guitar riffs to deep bass lines Krazy Race is not biased to a sound that will jump off the vinyl and into the blood streams of his audiences. Now back in the pit of Southern California's Latino Hip-Hop Movement KrazyRace is once again sparking the scene. Backed by a live fierce guitarist and beats cut from the most creative elements known he is working his way to the front of the stage. KRAZY RACE delivers flows with an undeniable stage presence and dynamic raw emotions to give an explosive performance. Carrying nothing but his dreams and his mic, KRAZY RACE is challenging lowrider

There are no limits or labels tailor fitted to dress KRAZY RACE up in. He wears his styles as loosely as his pants, delving into the mixes most WEST COAST rappers would run from.
