

Mp3 Lionel O - Nemo Nocturne - Ep

[DOWNLOAD HERE](#)

One of the Midwest's best-kept secrets returns with five songs of witty, bittersweet, catchy guitar-pop. 5 MP3 Songs in this album (18:43) ! Related styles: FOLK: Psych-folk, POP: Folky Pop People who are interested in David Bowie The Flaming Lips Nico should consider this download. Details: Having already carved out a niche for himself with his first two albums, Lionel O returns with the Nemo Nocturne EP. His trademark wit, whimsy, and whistling are still there, but theres something else. Hes still making catchy lo-fi guitar-pop, but its more than that. Nemo Nocturne is a complex, contradictory record; its rough around the edges, but shows the work of an accomplished artist. Each song feels wholly different from the Bowie-esque glam of Angels to the kazoo-infused bizarro-folk of Vacation Rentals but its not a matter of inconsistency; instead, it shows Lionel Os range. Its an innocent and idealistic record, but without being too nave. Its a perfect winter record, but its still warm and inviting. More than anything, the Nemo Nocturne EP is chock full of Lionel Os penchant for the bittersweet and surreal, and his own unique charm and humor. Overall, Nemo Nocturne EP is Lionel Os most uncompromising and promising work to date.
