Words that make the soul sing, set to music that makes the spirit soar, created by a passionate vocalist and song writer. 14 MP3 Songs FOLK: Gentle, FOLK: Folk Pop Details: Dear friend, I am a singer, songwriter, and recording artist living near Detroit, Michigan. I have been writing songs for over 30 years. Songs from my heart and my soul. Songs about the search for meaning in life, about growing older, about the challenges and rewards of our human relationships. I am passionate about writing and playing music. My concerts combine fun and playfulness with messages of personal transformation and hope, and they always include rousing sing-alongs. My songs are written with the intention of bringing about healing for you and for me and for the rest of this wonderful world. In addition to giving concerts and facilitating songwriting workshops, I run a company called Celebration Songs, writing personal songs for private clients. These songs have covered a wide variety of subjects: welcoming new babies into the world, teaching children to spell their names, celebrating anniversaries and birthdays, healing hurt hearts. My song parodies have been played on National Public Radio and Detroit area radio stations.
