dark experimental ambience 9 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Soundscapes

Details: A new wave of paranoia... The Paranoid Foundation return with their second cd release 'Double Negative' - 9 tracks of entirely instrumental, dark, brooding atmospheres. A variety of instruments and 'found sounds' have been used by the London, UK duo of Crispin Lee and Andrew Walker to create their subtle, shifting soundworlds. At once introspective and alien, yet still immersive and accessible: 'Double Negative' is some of their finest work yet. Oftentimes bewildering, the sonics perfectly mirror the enigmatic/organic cover art from the Foundation's third member, Japanese graphic artist, Tetsu Okada. Are you Paranoid? Welcome to the world of 'Double Negative'.
