Show all album songs: Sgt Majors' Maze Songs Details: The band has gone through a few transformations over the years. It's a long story so I'll just tell you all about the current stuff such as Who are the Egyptians? Well, the answer is simple: Micky Steevo and his selected entourage. Song writer/bassist Micky Steevo is much like Mick Hucknull in terms that he writes his own songs and gets the right personnel to participate in each new scenario. I was first spoon fed on listening to music from the Trojan record volumes where I fell in love with a reggae cover version of George Harrisons my sweet Lord. I was also exposed to the magic of Lou Armstrong and then onto bands such as The Police; The Beatles; Hendrix; ELO; Level 42 and much more. Despite of my many influences, I like to think that The Egyptians music has its own fresh sound that stands out from the usual. Our music isnt entirely rock nor is it pop I guess it sits somewhere in between the two. On reflection I suppose our music could be described as dynamic rock executed with melodic touches grit and compassion. The band have gigged throughout London and beyond, at the various prestigious rock venues. Writing my forthcoming album Sgt Majors Maze, took a number of man hours to get the album to how Id dreamt it could be. I guess that its fair to say that one or two tracks on the album came to me in the form of a dream. And no I was not under the influence. Im very excited about my recent work, it has something for everybody.
