Conspiracy of Love have become the favorites of the war resisters movement in Germany playing big-band-klezmer renditions of the songs on the CD with the 12 piece Klezmischpoche mentioned in the first song. They provide spiritual guidance with an Indian accent to Germans on how to let go - laugh - and dare to dance and practical guidance to Israelis on how to avoid the military and break with maffiazed religion to kiss God. The Free Gaza movement, Anis Hamadah, Amnesty, Bernadette, War Resisters International, Fanny Michaela and a growing list of individuals , small theaters, cabarets, churches and culture centers joined the conspiracy in 2008. After a year they had polished their repertoire to recordable essence and are placing it on the CDBABY alter on the same week as their CD release tour of ofermusic.com
