a single girl singing stories of life and love, over hip hop beats. 10 MP3 Songs POP: California Pop, POP: with Electronic Production Details: mauricio lewak, aka "fritz", and i have known each other since the 80's. in 1997, when i went to fritz about doing a cd, he was all ears. i bought him studio equipment, for his producer's fee, and together we co-wrote 12 tunes. he would give me tracks to work with, and i would come up with the story. then we would do the tweaking together. we picked 8 tunes, and pulled in 2 david harvey favorites, and made this cd, "free as a bird". it was a fun project. one positive result of this cd was meeting james brown. he heard his tune, "i love james brown", and i have been his guest at any show i want to attend, ever since. now , if only he'd let me open up a show.... i just know he'd love me. :) i hope you enjoy the cd. please tell me what you think. spreading some love, cynthia manley
