Sick, twisted songs about Christmas and other ordeals. 11 MP3 Songs FOLK: Political, ROCK: Folk Rock
Details: Dan Hart grew up in L.A. during the first years of the Dr. Demento show, so it was inevitable that he would choose psychology as his profession. He stayed in it just long enough to absorb his patients' psychopathology, and now he spends all his time writing songs that are a poke in the eye of his former shrink colleagues as well as his current ones in the music biz. No wonder he has no friends. He does, however, have four CDs, 20 years of airplay on Dr. Demento and Car Talk, and a coffee addiction. Find him hiding at danhart.net.
