A wonderful melodic piano fantasy and journey. Blend of smooth jazz and "PURE Piano" original compositions. Very beautiful, emotional and peaceful music. 13 MP3 Songs NEW AGE: New Age, JAZZ: Smooth Jazz Details: Piano has been an integral part of David's life since the tender age of five and after 27 years of learning and exploring music, David has developed a unique style of instrumental piano that is both emotionally soothing and reflective. His first CD, "From The Heart," embodies 12 years of work, combining pure piano and smooth jazz for a soft, inspiring musical experience. Inspired by musicians such as David Foster, Tom Grant, Billy Joel, George Winston, David Lanz, David Benoit and Elton John, and also by the year abroad he spent in Salzburg Austria, Finch compiled a four-song suite entitled "Always A Dancer." The suite included Misha's Theme, which he wrote during his freshman year in college. Some of these songs were added to the recording of "From The Heart." To David, music is a second language. It has been with him during hard times and good and will continue to be his close companion.
