"Dreamy soul-jazz and trip-hop. Way more Portishead than Norah Jones. Timeless soul music." -Bill Picture, SF Examiner "Lazy jazz grooves underpin a warm, emotive vocal. Pure escapism." -Music Week "Beautiful music, totally in focus." -LMNOP.com 11 MP3 Songs ELECTRONIC: Pop Crossover, JAZZ: Soul-Jazz Details: A Los Angeles-based singer/songwriter, Gretchen was raised in Berkeley, where her passion for jazz, soul and urban beats developed within the Bay area music scene. After fronting a funk band in the late 1990s, Gretchen's debut solo album "3 AM," produced by acclaimed musician Greg Pore (who has worked with such artists as Stevie Wonder and Cassandra Wilson), was self released and found an audience on the internet. Several songs including "3 AM" and "Angel Eyes" regularly topped the Mp3charts in jazz, acid jazz and soul categories. With such success, Lieberum was signed to Lakeshore Records (Warner Bros.), and released her second album, "Brand New Morning," which she co-produced with Pore. The album featured several collaborations with DJ Cut Chemist of Jurassic 5 and Ozomatli fame. Her current album "Siren Songs" was produced by John Gold ("Eastside Shake") and his partner Sam Music. With a wealth of musical ideas, Gretchen's "Siren Songs" is her most personal work to date. Checkout [gretchenmusicfor](#) more information, reviews and links.
