Fun, happy, mostly instrumental Casio pop for people of all ages (yes, all of them.) 14 MP3 Songs POP: Quirky, POP: with Electronic Production Details: Hello people! So, you wanna know about this album? Well here's what you gotta know!!! "Loosed" is a light and fun album perfect for all ages, from wee children to humongous grandparents! This CD was made using old 80s home Casio keyboards, specifically the MT-68, MT-400V, MT-70, DM-100 and RAP-1 (Rapman). No extra effects were added, except for a small amount of EQ and compression on the overall mix. This gives "Loosed" a very raw, dry sound. But, if you like the Casios, this album has them layered high like a cheesy audio sandwich. ??? "Lo-fi electronic noise-pop that refuses to give in to anything remotely modern, 'Loosed' is odd but damn fun." -- J-Sin@smother.net Yes! Independent, impartial corroboration of the fun that can be had by listening to "Loosed"!!!!!! Anyway, you might just want to listen to the clips! Try before you buy, right? Your reaction will range anywhere from disgust to joy! Don't be afraid to visit Hypnotuba on MySpace, either: myspace.com/hypnotuba Thank you for listening!
