Rootsy pop drawing from folk, country and blues. Emotional and amusing real-life stories, with a pure, soulful delivery. 9 MP3 Songs COUNTRY: Country Folk, FOLK: Folk Pop Details: ISWM Top Pick of the Month - The moody undertones of Julie's voice set the right tone for this understated piece of songwriting pleasure. The stories are simple, yet when delivered by Julie, they take on subtle shades of interpretation. Her relaxed handling of the lyrics creates a sense of shadowed indifference to the stories being conveyed. Julie Grower proves that even small changes in vocal tone or minute shifts in the music can excel the songs to brave new heights of glory. Julie Grower makes it look so easy, and makes it sound so good. - Independent Songwriter Web-Magazine Les Reynolds of Indie-Musicsays: "From listening to this CD, it appears this young singer/songwriter has stripped away all the pretense, affectations and trimmings to get to the heart of her own true sound." "In A New Light" was produced by Julie Grower and Jon Gordon (who has served as musical director and guitarist for Suzanne Vega and Madonna). Gordon also handles much of the instrumental work on the album. The album also features Lisa Haney on Cello, Robert Sheridan on Guitar, Chris Benelli on Drums, Kenny Kosek on Violin, and Charlie Giordano on Accordion, among others. See more reviews below.
