A big modern rock sound that fuses blues, jazz, folk, and rock influences into an extremely entertaining and listenable breed of music. 14 MP3 Songs ROCK: Modern Rock, POP: Power Pop Details: In a time of formula-rock bands and one-hit wonders that pollute the airwaves with music that is both uninteresting and devoid of substance, Western Pennsylvania's Mind's I has emerged as an innovative force poised to re-engineer what many consider to be the dying alternative / modern rock genre. Mind's I has cultivated a loyal fan base across the Northeast United States through the members' critically-acclaimed musical prowess, the band's highly energetic and entertaining live performances, and above all the memorable, timeless music of the four-member songwriting team which includes the dual singer-songwriter combination of Tom Panei and Greg Muiter. After finishing third out of over 200 entrants in the most respected regional "battle-of-the-bands" - the Graffiti Rock Challenge (based in Pittsburgh, PA), Mind's I went on to log thousands of tour miles in 1999, making stops as far East as Atlantic City, NJ and as far West as Chicago, Illinois. Mind's I continues to gain support and enthusiastic fans wherever their music is heard. While individual songs in the band's repertoire have elicited comparisons to bands like The Barenaked Ladies, LIVE, Dave Matthews Band, and Dire Straits, Mind's I remains a band in a category of its own - fusing elements of jazz, folk, and blues into truly unique compositions. The music of Mind's I transcends the trappings of modern pop music, and is readily embraced by people of any demographic.
