songs and melodies that will dwell in you head long after listening. 10 MP3 Songs ROCK: Folk Rock, FOLK: Modern Folk Details: Guitarist, vocalist and songwriter Paul Casey unravels modern guitar playing with upbeat grooves and samples, while never straying from rootsy rhythms and sounds. Born in Co. Derry, Northern Ireland, Casey displays an exceptional command of slide guitar styles and a unique flair for penning striking tunes. His songwriting, guitar playing and distinctive voice are causing quite a stir both sides of the Atlantic and set this Irish talent aside from his contemporaries. Whether fusing infectious riffs with intricate Irish rhythms or drawing on musical snapshots of legendary guitarists, Casey has created a unique, rootsy blend of modern sounds. Often compared to US guitarist Ben Harper, a string of critically acclaimed US performances - in particular at the Living Room in New York and the prestigious Starr Hill Music Hall in Charlottesville, Virginia - have resulted in a devoted and dedicated following Stateside. Very much at home playing with full band and slide guitar to the fore, he draws from the past and present to offer a unique and rare experience. In the past, the unassuming Casey has performed on the same bill with well-established artists such as Van Morrison and the John Butler Trio, and also with performers such as Damien Rice and Gemma Hayes, The Frames and Damien Dempsey. A tireless worker, a prolific songwriter, an engaging performer, Paul Casey is a musician for fans of real music.
