Guest Derek Trucks on the title cut. 13 MP3 Songs ROCK: Psychedelic, BLUES: Rockin' Blues Details: I am a self-taught musician, and i have been playing professionally for 15 years, and have been writing songs for almost that long. I have been living and working in the southeast where I played in numerous bands as well as performing constantly as a solo act. I am currently playing and living in Colorado at 10000 ft. "The Circle" was recorded at Elixir Studio in Athens GA in 95 and 96 and is a reflection of my years of being angry at the state of affairs in the world and especially in this country(Reagan/Bush era). But I feel it also reflects an optimism that we can make a better world. A special treat on this cd is Derek Trucks playing slide guitar on the title cut.
