Powerful themes lush orchestras weave around ambient, celestial synth effects conveying the magnificence infinite depth of the universe in this gorgeous soundtrack for any cosmic or out of body event from star gazing to deep space exploration. 9 MP3 Songs NEW AGE: Ambient, ELECTRONIC: Virtual Orchestra Details: Just how out-of-this world is "Space Haunt"? Fold out the CD cover and you will see two galaxies colliding on a photograph from the orbiting Hubble Telescope. That's about as close to Earth as you're going to get. Take one look at the blue gas nebula, silk screened on the disc, and you know you will be spending some time away from the planet. Imagine John Williams("Star Wars" I,II,IV,V,VI) and Alan Silvestri("Contact"&"Back to the Future") teamed with New Agers, John Serrie and Steve Roach. It's ambient, of course, but there is something extra here! Dozens dozens of beautiful melodies you have never heard, whisk you away from the Human Space Time Illusion to a different reality. Don't worry. You can find your way back and you'll return to us a bit more uplifted. Listen now to sample track 3. The goal was to create the period before dawn without the simple expedience of effects like cricket chirps frog noises. Can you hear the darkness before the "Alpha Sunrise"? From the glorious lift-off of "Enlightenment" to the harp filled, heavenly passage Grand Finale of "Alpha Romance" there is more than music here. There are colors for the ears and the soul. In track 2 you can actually hear when the "Mystery" is solved. The reward is a 3 minute levitation to Nirvana, a finish so stunning it calls for an encore, in "Meditation Mix". Blessings to those who take the "Space Haunt" journey. The Guardians of All That Is have indicated this music is already playing in the spirit planes so why not be amongst the 1st to hear it in physical matter reality. AND by the way, Live Long Prosper!
