Organic songwriting with rocking acoustic guitar. Pop music with substance. 11 MP3 Songs ROCK: Acoustic, FOLK: Modern Folk Details: Instead of trying to describe our own music, we let you talk: "I have to say that my favorite songs are Broken Record, Single (I REALLY like that one), If only for a day, and Carry on. Fall from Eden is high on my list as well; it's just one of those CD's where you don't skip any songs because they're all so good." - Ashlee S. (Long Beach, CA) "It is seriously one of the best pieces of work I've heard in a while. I was looking for something exactly like it and was not finding it. You know, there is so much crap out there and I was just looking for something mellow, something simple, just plain good music. Not Quite Honest is all those things and more...It's original, it sounds good in whatever mood I'm in and it doesn't get old (I've listened to the full album start to finish over and over many times, which is rare)... I was looking for music that still has good energy to it, but isn't so hard on the ears. Your music was the perfect find for me. I like it because I can listen to it whenever, it is not depressing or whiny, it's not angry or negative, it's not too fast or too slow, it just flows and it is original. I've let other people listen to the CD and every one of them has liked it... So, for what it's worth, you have a big fan who thinks your work is the make. And I'm not some loser with nothing better to do than write you guys this lengthy letter kissing your ass, I just really have enjoyed your cd..." - Chris H. (Hawaii) "The CD is awesome, I can't get enough of it." - Jessica G. (Sunland, CA) "The only reason I'm writing this is because the CD is absolutely amazing, and I just wanted you to know you have at least one fan." - Kyle H. (Texas A&M)
