Rock with a soulful R B feel and powerful female vox. 7 MP3 Songs URBAN/R&B: Rhythm Blues, ROCK: Funk Rock Details: Twenty One (21) is a project that I recorded in my home studio. I laid down the drum tracks and guitar parts, setting the ground work for my new CD. I met Summer Bevins and John Shickler and they joined me to complete the CD. My music is a blend of Rock with a R/B feel. It has a fiery blaze like Jimi Hendrix, with the smooth touch of Carlos Santana. If you like Sade, then you will love the sexy voice of Summer. She also reminds me of Nancy Wilson of Heart. By some twist of fate, I met Summer, a dynamic, powerful singer. She came in near the end of the project, and really nailed the vocal parts. The combination of her lyric writing and beautiful voice coincide with the groove I was trying to create. Her voice and the lead guitar are a blend of harmony that cries out to the listener. John Shickler also added great bass lines to three of the seven songs on the CD. His style speakss to you, and you can really feel the groove. We also have a guest singer, Noah Bevins, who performs on one track.He sings his heart out. This is my third CD. My first CD was called Love Stuff, the second was Moving On, and they were all original works. The first two CD's were written, performed, and produced by me. The CD Moving On and Twenty One (21) would bring in the new talent that would be appreciated by all ages. What a sound! Support your local artists.
