Related styles: POP: New Romantic, EASY LISTENING: Ballads People who are interested in Cyndi Lauper Simply Red Duran Duran should consider this download. Details: Founded in piano and guitar song writing, Kopandys music is embellished with lush synths, guitars, loops and harmonies. Steve covers the ground of stripped back piano balladeer, Ryan Adams'esque, in Songs like 'Paris in the Winter' and 'Corona and Lime', right through to the wide layered production that Simply Red or Tears for Fears taught in the 80's, in songs like 'Amsterdam'. Released Separately, 'Based On' and 'A True Dream' make up Steve Kopandy's debut double album. Inspired by world travels and living in Europe, this emotive journey through living, loving and leaving comes with a photographic journey. So far it's received great reviews in Australia and the USA. dabbling in keyboard presets, guitars and pianos, relationships and song writing since an early age, Kopandy has been searching. Hes been to school, hes lived in slums, Hes traveled the world, hes had his heart healed and broken by Girls and God. He fights with love and he fights with music. Hes got 2 tigers by the tails. these two albums push two opposite boundaries for Steve. The writer vs the performer, the singer vs the producer, yet he manages to bring two worlds together using love and music as the common denominator. Its a lyrical, love bound journey through life. In the 80s Steve listened Cyndi Lauper and the Police. In the 90s it was Springsteen and Simply Red. In the 00s its Ryan Adams and Sufjan Stevens With moving songwriting, great musicians and producers, and a whole lot of passion, Kopandys double album comes long awaited and well refined.
