Soaring vocals and an acoustic blend of instruments complete this fresh crossover between modern pop and Swedish folk music in 12 original songs. 13 MP3 Songs POP: Delicate, FOLK: Folk Pop Details: "The songs in English are like abstract pastel paintings...beautifully arranged with piano, cello and gorgeous vocal harmonies." "This is an artist I can see in an intimate club, the lights low, her sweet songs entertaining couples holding hands. You can hear her classical training through the melodic piano and her light soprano, always clear and on pitch." IndieMusic.com "A Norah Jones-sounding songstress.." "TC's voice and the smooth harmonies of her debut album Scent of You speak easily to the audiences that are sure to continue growing." theOwlmag.com "Gorgeous voice....beautiful, well-crafted and elegant melodies with superb lyric lines." TAXI.com Meet TC - a very Swedish female singer/songwriter What do you get when you combine a girl from Sweden with contemporary American folk music? You get TC. Refreshingly free of lyrical narcissism this fresh young artist sings with a voice that you want to curl up to. Every song is garnished with Scandinavian-influenced melodies and TC offers a sound that is both unique and worth noticing, blending Nordic folk melodies and contemporary pop. She sings in both Swedish and English with and her songs leave no stone unturned in describing strong emotions - all resolving in beautiful harmonies reminiscent of the melancholy in Scandinavian folk music. TC Brewitz may live as an urbanite in the San Francisco Bay Area, but she did grow up in a rather remote corner of Sweden where she got her classical training in voice and piano. In 1995 TC came to the San Francisco Bay Area and quickly moved into the local music scene, as a rock musician, keyboardist, jazz singer and Swedish folk music artist. While sharpening her musical skills in several genres, TC also kept on writing her own material. In the summer of 2004 TC met with Ben Yonas, the producer behind such rising stars as Spencer Day and King Street. Immediately, Ben picked up on the unique appeal of TCs own music

and together they created a superb collection of timeless Swedish-American folk/pop with an immediate appeal to audiences on both continents. Joined by her talented band, TC is now taking her music to the larger stage, playing dates and showcases, with an overseas tour planned in 2006. When asked about living in the US as a foreigner, TC admits: When you live in a foreign country, you often find yourself on the outside looking in. That, of course, sounds like a lonely and unsettling experience, but it really has given me a wonderful opportunity to observe - and to express -- what I see and feel in my music. I have also found many fellow expatriates in the Bay Area who all have brought their musical heritage to a new place. Being Swedish in the US has given me greater musical freedom."
