Technological Solutions looks to finding an answer to climate change through scientific means. Many ways to reverse climate change are introduced from the obvious reducing pollution and carbon dioxide through renewable, future energy to the fascinating idea of using screens and mirrors to partially block sunlight, from building levees to prevent floods to creating artificial clouds and growing plankton to absorb extra carbon. Facts, myths, and modern solutions are presented in clear, age-appropriate language. Readers learn what is being done to protect and live in the world of the future.
