

# Key Topics In Landscape Ecology

[DOWNLOAD HERE](#)

An in-depth survey of the major theoretical and methodological issues in landscape ecology. Landscape ecology is a relatively new area of study, which aims to understand the pattern of interaction of biological and cultural communities within a landscape. This book brings together leading figures from the field to provide an up-to-date survey of recent advances, identify key research problems and suggest a future direction for development and expansion of knowledge. Providing in-depth reviews of the principles and methods for understanding landscape patterns and changes, the book illustrates concepts with examples of innovative applications from different parts of the world. Forming a current 'state-of-the-science' for the science of landscape ecology, this book forms an essential reference for graduate students, academics, professionals and practitioners in ecology, environmental science, natural resource management, and landscape planning and design. EAN/ISBN : 9780511292415 Publisher(s): Cambridge University Press  
Format: ePub/PDF Author(s): Wu, Jianguo - Hobbs, Richard J.
