Roots rock traditional american music, mixing Native American influences with poignant, biting lyrics in the spirit of political folk. 10 MP3 Songs FOLK: Political, ROCK: Roots Rock Details: *NOMINATED FOR THE INDIAN SUMMER MUSIC AWARDS 2004* Native Spirit category indiansummer.org/festival.htm indiansummer.org/ISMANomineespr.htm Georgie Jessup is a three time WAMA nominated singer songwriter, and musician of extraordinary passion. S/he has an equally extraordinary ability to encourage audiences to look deeply into their prejudices and other transgressions. Consequently, audiences tend to respond emotionally, if not always lovingly. Georgie has developed a successful career by challenging musical styles, personal identifications, and storybook history lessons. S/he has released three CD's AMERICAN HOLOCAUST, SWEET GRASS SMOKE, and WINKTE CRAZY SACRED DOGS and is working on he/r fourth release with co-producer and engineer/musician, Billy Kemp and his band Willbilly. Austria's own Big City Indian for their 2003 release Native Heart Urban Soul recorded he/r song, Red Cloud's Room, from the Sweet Grass Smoke CD. Georgie's AMERICAN HOLOCAUST is a controversial CD. The title caused the album to be banned at many radio stations before anyone listened to the music. Those who listened heard carefully crafted songs illuminating the dignity of all people, and they heard an artist pleading for the preservation of a country founded on the principles of life, liberty, and justice for all. "Georgie sings from the heart, like a rare flower in a wilderness. She speaks to us about the deepest issues. Issues that all of us should care about, but so many of us pretend don't affect us. Georgie reminds us that we are all related in our human condition and struggle. And Georgie reinforces that we are all trapped by gender and physical being, and that the brightest life and light we have is our soul."
