Deep folk without schmaltz, a poet to the bone, rich Taylor guitar backs a voice that will calm your house into a temple. 10 MP3 Songs FOLK: like Joni, NEW AGE: New Age Details: Clean, refined debut album, with ten original acoustic tracks that will calm and inspire you, your house, your kids, animals, anyone.

This first release culls the best of her early soft, contemplative folk. Great for lovers or as a gift for someone who's hard to buy for. Jesse's voice is deep, rich and carries a full complement to her finger-style tunes on the Taylor 514C guitar. Once you get this, you'll find yourself wanting to hear what came after, too. Jesse has other releases, but this remains the fave. "There is a healing and openness in Jesse's music that feeds your soul and touches your heart." Kate Campbell "An extraordinarily sensitive artist..." South Bend Tribune "This music transmits peace." John Dinsmore, WGMS in DC
