Bassist Darek Oles and drummer Jamie Tate round out the combo. 11 MP3 Songs JAZZ: Jazz Vocals, JAZZ: Traditional Jazz Combo Details: "Grace provides the perfect vocal, infused with character, a sense of adventure and hint of danger a really impressive CD. Grace's talent as an interpretive vocalist is once again very much in evidence, as she spins out some gorgeous, pure tones without sacrificing the text. All in all, this is a terrific debut CD from a very interesting talent." - Mark Miller, Sliding Door Jazz "...a good representation of why she has been garnering a lot of positive critical acclaim...I sensed the kind of cool warmth that was a hallmark of one of the best of all jazz influenced vocalists, Irene Kral. Grace's approach comes from a jazz base, and she puts her own subtle twists and turns on even the most familiar songs among her selections." -- Joseph Lang, Jersey Jazz "Her clear, lyric tone of haunting beauty is a study in perfect production...she takes scat singing in a new direction, with the dulcet tones and lines of a flute." -- Louise Causey Lewis, Island Packet
