Newclassical solo piano. Some pieces are deep and romantic (Chopinish), but most are fast, energetic and powerful (Beethovenish). 11 MP3 Songs in this album (51:58) ! Related styles: CLASSICAL: Piano solo, NEW AGE: Neo-Classical People who are interested in Ludwig van Beethoven Frdric Chopin should consider this download. Details: This is my debut album in the physical CD format. I distributed my music as mp3 on the internet around 2000, but have taken a long hiatus from distribution until now.

Consequently, this album is effectively a public debut of my work. This collection presents a broad spectrum of piano works ranging from slow and romantic (Daydreaming, Train of Thought, Slia) to furious and powerful (Following the Red Queen, Apology, Racing the Storm, Epic). The rest fall somewhere in between. I would not generally describe the more energetic pieces in this collection as either easy-listening or new-age since they tend to have a more forceful tone that those genres often present. Best to call my piano music neoclassical and leave it at that. If you like Chopin or Beethoven then you will probably enjoy my music. Playing and composing for the piano is a passionate and emotional experience for me and you will hear this come across in my compositions and in my playing style. Immerse yourself heavily in my music, do not listen to it in the background, at least in your first session. Pour a large glass of red wine, sink into the sofa, and let it surround you. You will not be disappointed.
