

## Mp3 Proswell - Konami

[DOWNLOAD HERE](#)

This compact disc is Proswell's first full length release on Merck records and represents three years of work and experimentation. Konami is an hour of dark engrossing melancholy melodies and thickly layered lo-fidelity percussion. 22 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Down Tempo Details:

This compact disc is Proswell's first full length release on Merck records and represents three years of work and experimentation. Konami is an hour of dark engrossing melancholy melodies and thickly layered lo-fidelity percussion, a perfect companion for late nights in front of all types of glowing screens and steaming cups. Konami is specifically calculated to send vague waves of video game nostalgia past your nostrils like the fumes of hot caramel syrup or cinnamon tea and cream. Proswell's previous material is only sparsely available on compilations(Merck's "Squadron" others) and is occasionally performed live in Chicago. Definitely check out this release as Proswell brings the fuzzy SPC700 nostalgia.
