Spirit Truth continues to challenge people's general perception by demonstrating that praise and worship is about the message not the style. This is apparent by their usage of several different genres of music including rap, hip-hop, contemporary R&B and latin in their music. After ministering at different concerts and churches in 2000 and 2001, On November 23rd, 2002, Spirit Truth headlined a concert of their own entitled "Keep It On The...D.L.O.W." Out of that concert was born Spirit Truth's debut release on compact disc: Spirit Truth: D.L.O.W. Different Level Of Worship. True to their form, this C.D. is an eclectic blend of different styles of music all united to praise and worship God!
