Imagine having a system that grabs your visitor with an irresistible bonus..... but makes sure that their referred friends gets there before they ever see the bonus downloads. Tell A Friend scripts are easy to implement, but to date there's not much out there that can determine that your site visitors are not keying in some bogus emails just to get to the bonus page. If you want to maxed out on the list building potentials of ANY of YOUR websites, then Tell A Friend Detonator XL can perk up you sluggish list in less than 24 hours! While some have only scratched the surface by using Tell A Friend Scripts to promote their sites... nothing comes close to this... because you see, most of the Scripts available, acts just like any form to email scripts where there's no way to tell if the visitor is keying in real email addresses that will really click on the link.
