As time-tested as it is timely, the expert advice in Growing Up Again Second Edition has helped thousands of readers improve on their parenting practices. Now, substantially revised and expanded, Growing Up Again offers further guidance on providing children with the structure and nurturing that are so critical to their healthy development -- and to our own. Jean Illsley Clarke and Connie Dawson provide the information every adult caring for children should know -- about ages and stages of development, ways to nurture our children and ourselves, and tools for personal and family growth. This new edition also addresses the special demands of parenting adopted children and the problem of overindulgence; a recognition and exploration of prenatal life and our final days as unique life stages; new examples of nurturing, structuring, and discounting, as well as concise ways to identify them; help for handling parenting conflicts in blended families, and guidelines on supporting children's spiritual growth.
