Constant's intellectual development into a founding father of modern liberalism is examined through an analysis of his evolving religious philosophy. Professor Rosenblatt presents a study of Benjamin Constant's intellectual development into a founding father of modern liberalism, through a careful analysis of his evolving views on religion. Constant's life spanned the Enlightenment, the French Revolution, Napoleon's rise and rule, and the Bourbon Restoration. Rosenblatt analyzes Constant's key role in many of this era's heated debates over the role of religion in politics, and in doing so, exposes and addresses many misconceptions that have long reigned about Constant and his period. In particular, Rosenblatt sheds light on Constant's major, yet much-neglected work, *De La Religion*. Given that the role of religion is, once again, center-stage in our political, philosophical and historical arenas, *Liberal Values*, originally published in 2008, constituted a major revision of our understanding of the origins of modern liberalism. EAN/ISBN : 9780511434075 Publisher(s): Cambridge University Press Format: ePub/PDF Author(s): Rosenblatt, Helena
