

Mp3 Bodhisattva Jones - Imaginary Weather

[DOWNLOAD HERE](#)

Progressive electronic jazz rock with cinematic overtones 13 MP3 Songs ELECTRONIC: Nujazz, ELECTRONIC: Experimental Details: The second release from Bodhisattva Jones, Imaginary Weather is in part a tribute to the late, great Josef Zawinul, composer, keyboardist and founder of Weather Report. It also features a sly nod to the great progressive rock bands of the early seventies, yet is nothing if not cutting edge in sound texture and composition. A more varied and uptempo release than 2007's Emotion Controlled Oscillator, Imaginary Weather will take you on a journey to many exotic, internal worlds. The work of Portland, Oregon artist Brett Harrison, whose unique photography graces the cover, can be accessed at bharrisonfoto.com. Bodhisattva Jones is the nom-de-sequencer of Michael Allen Whipple, a multi-instrumentalist and producer living in Portland, Oregon. Bodhi loves to make chips and wires sound like flesh and bone. Or transmute the flute into the wonderful world of silicon. This virtual band has been producing music since the turn of the century, and sees no reason to stop now. People who are interested in Yes Herbie Hancock Weather Report should consider this download.
