The Hooker Street Band is a great experience for any music listener. Their warm sound reminds us of our days here, and their woven melodies dole out the perfect dose of rock, rhythm, and music. You should certainly take in the Hooker Street Band. 12 MP3 Songs POP: Beatles-pop, ROCK: Acoustic Details: The Hooker Street Band is a Boston/Providence based rock band with a creative and thoughtful take on the genre. Frontman/songwriter Josh Levine's knack for catchy, poppy melodies and lyrical sincerity has been turning heads since the band's inception in January 2004. Drawing from musical influences as far apart as Neil Young and Weezer, Levine takes fresh aim at the familiar topics of hopefulness during rough times, the consumer society, flirting, moving on.....oh yeah and love. The band's live set features vibrant dynamics driven by a spunky rhythm section, tasteful guitar work by Providence native George Leonard, lots of energy and fun, and on a good night their t-shirts are even color coordinated.

So, we started sending out CD's a few months ago to college radio stations, and we are amazingly psyched to say that we're in rotation at 40 stations that we know about in the U.S and Canada, and we even made it into a few top 30 charts! Please scroll down to your home state to see which radio station you can request Hooker Street Band on. If your favorite college station isn't on here, let us know and we'll send them a CD.
