Sweeping emotions fit for grand epic story-telling. Colourful, energetic pop/rock tunes. Complete instrumental ecstasy. 19 MP3 Songs EASY LISTENING: Soft Rock, NEW AGE: New Age Details: What might it sound like if someone composed songs in the style of Benny Andersson and Björn Ulvæus of 70's pop/rock group ABBA, but performed them instrumentally like Yanni? What if quieter Enya-like pieces were included as well? What if the themes began to intertwine themselves between songs like a movie score? And what if experimental sounds and cues from ancient cultures were used to give it more of a New Age feel? The answer is that it might begin to sound something like "Harmonic Odyssey", an album of 19 thematically linked songs that strike a range of emotional chords and styles. "I definitely love to use memorable melodies, catchy bass-lines, and grand orchestral ambiances as main ingredients in my compositions," says "Harmonic Odyssey" composer/performer/producer Martin Izsak. "Odyssey" is a completely instrumental album. The music was created on synthesizers, using a virtual orchestra of strings, guitar, bass, flute, clarinet, trombone, french horn, wordless choir, piano, harpsichord, drums. The pieces also feature many newly created synthetic instrument sounds. This CD is packed with energetic, graceful, majestic instrumental soft-rock and classical / new age / experimental compositions, a 70 minute, round trip ticket across a universe of wondrous harmonies, rousing triumphs, and playful fun.
