

Mp3 Men With Voices - We're Gonna Make It

[DOWNLOAD HERE](#)

Distinctive contemporary sound. 11 MP3 Songs GOSPEL: Contemporary Gospel, KIDS/FAMILY: Kid Friendly Details: Men With Voices are a group of three brothers that come from Seale, Alabama. They started out singing scripture songs with their parents from a very young age. Their Dad, who is an accomplished guitarist, taught them how to harmonize while their mother taught them how to memorize verses from the Bible through song. Over the years, the growing talent of these three young men has matured. While singing in choirs, performing at local churches and interacting with other gospel artists and musicians. Performing some of the most popular gospel songs of that time, they found that singing the music of other artists was not fulfilling to them, so they branched out and began to write and perform their own heart-touching songs that spoke of their own individual experiences with Christ and are in alignment with the Word of God. Thus allowing them to be more creative with their gifts and talents. With a praying mother, they found their talents were best united if they were used for the uplifting of Christ and they made ministering to souls their primary goal. They began ministering throughout the Columbus, Georgia area and along the East Coast. These talented young men started with the dream of furthering the music of their dad and uncles, and with the help of the Holy Spirit have completed their first project. Men with Voices realize that they have a great task ahead of them and they are anointed by God to further His work and pierce the hearts of men to return to God. Their ultimate purpose in life is to further the gospel and tell of the soon coming of the Lord Jesus Christ. There are several scriptures that they keep ever before them, but they want everyone to know that the Lord is soon to come, and that "this Gospel of the Kingdom shall be preached in all the World for a witness unto all nations; and then shall the end come." Matthew 24:14.
