An upbeat mix of kid-tested, adult-friendly songs to keep the whole family singing, laughing, and rocking along--as much fun as the first day of summer vacation. 17 MP3 Songs KIDS/FAMILY: General Children's Music, KIDS/FAMILY: Children's Pop Details: ABOUT THE CD, "OUTTA SCHOOL!" OUTTA SCHOOL! is the second release by award-winning children's musician, Steve Blunt. The CD's mostly humorous tunes loosely follow the chronological pattern of the school calendar, with Back to School near the beginning and Summer Vacation close to the end, but the majority of songs are simply lots of fun, any time of year. Many musical styles are represented, from the Dixieland/swing-influenced Monkey, Monkey! (about the adventures of a little girl and the monkey she liberates from its cage at the zoo) to the old-school ska beat of Too Many People in a Little House (composed when Steve was still in school all those years ago). A number of original tunes pay tribute to classic sounds of the 50s and 60s; one such track is Reading Road Trip, USA, commissioned as the official theme song for the New Hampshire State Library's 2007 Summer Reading Program. Also included are standards that have become favorites at Steve's popular live shows: You Are My Sunshine, Fanga Alafea/Liza Jane, and others. Thanks to a host of talented musicians and engineer/producer Brian Coombes at Rocking Horse Studio in Pittsfield, NH (rockinghorsestudio.com), OUTTA SCHOOL! pleases the ear with a groovy vibe from start to finish.
