SPOKEN WORD: With Music, JAZZ: Jazz Vocals Details: This highly anticipated release is the icon of the future, the classic of this age. It features the poetics of Nasty Mouth with the funk/rock/folk guitar arrangements and the jazz vocals of The Annihilated. This album is reminiscent of P.O.W's neo-soul/funk/jazz and certainly has the same striking lyricism of S.B.'s Two Birds One Stone. Utilizing a particular spectrum of different vocalist, including Nasty Mouth himself, each piece is expressed with words both spoken and sung to the haunting rhythms of the Annihilated musicians, some of them comparable to the Celtic harp and flute of Irony and Omen Sade. This album is a must for all connoisseurs of the best in spoken words accompanied by the best in music. The CD has hauntingly beautiful vocals. I am a vocal coach and use the Spoken Word CD for mental stimulation. Annaka Sorenson Vocal Coach Bregenz, Austria I am a musician who goes crazy with the music business all day long. I relax listening to Spoken Words. Nasty Mouth and the Annihilated will take you on a spiritual vacation so that you are not alone with your thoughts seeking truth and love. Manny Keller An Unreel World Recording Portland, Oregon I would say ... all music well performed and words well spoken....."Field Notes from a City" ,I would say this iskind of a day in the life; like someone reading a book to the class and showing them the pictures in the book..... Here, you are doing all this with sounds, very interesting, engaging. Bailey Stump Probity
