TheBCPRIESTBand,TheBCPRIESTBand,TheBCPRIESTBand,TheBCPRIESTBand,TheBCPRIESTBand, TheBCPRIESTBand,TheBCPRIESTBand.... The BC PRIEST Band is a band of constant current and in 3-D motion.....this makes them ideal for an MTV shot cuz noone is in anyone else's way. Wherever they stand, you can see all points. HA! AN ISOSCELES BAND, YEA!!!! Well, let me tell ya.....that's ALL gonna change soon.....as soon as all the illusive players are rounded up and installed.....and it will get sweeter by the song.....but until then.....TA DAAAAAAAAAAAAA...IT'S US, ME, HIM!!! WHO, WHAT, HUH IS THE BC PRIEST BAND???????? The band makes punchy, strong party rock: it flows, it grooves, it rocks! They're influenced from a WIDE variety of artists (some of them paint, weave stuff). Besides singing, guitars are important to BC Priest (aka Blueman)who handles the main duties of the 6-string on stage. This 25-year CHICAGO stage veteran's saavy with an axe is comparable to that of guitarists half his age (HEY!!! WHATDAYAMEAN??) Er, I mean twice his age, yea (that's more like it.) He has perfomed over 500 shows, backing national acts as well as headlining hiw own bands. He does most of the writing,plays keys, occasionally bass mandolin makes brownies. Flanking him stage right back center are the low down low end low rumblers, covering the monster rhythm section needed to support

the songs. Someday, the band hopes to evolve....er, I mean they are evolving....as we speak....uh huh. They are formulating ways to make their own beer too.....'BC BEER' for the thirsty rock in your throat. DR Eugene Foley from FOLEY ENTERTAINMENT (East Coast PR firm) says...'I SEE TALENT AND POTENTIAL HERE....' Real nice...oh yea, like to hear that. HEY, WE'LL PLAY YOUR NEXT PARTY DUDE AND DUDETTES!! Inspired vocals are channelled by osmosis thru classic singers like JR RICHARDS, CHRIS MARTIN, David GILMOUR, Tim BOWNESS (Porcupine Tree), with touches of ZANDER Prozac for Lovers in style, there be NO screamin' chile, dontcha know. So--very smooth with a strong rock backbeat. The seasoned songwriting is apparent from the opening Floydish/Eric Johnson instrumental 'Origin/Ascension' (very cool tune to open the show---you need to be there, you know---neopsychodelia) to the closing Green Day-like finale, 'Undone' (definetly rocks your socks off---me--I don't wear socks). Their playful use of melodic guitar riffs (juggle these), catchy rhythms (use a catchers mitt) and sexy, soulful vocal lines (oohy, but not like Barry White--nope) combines for a powerful performance(1.2 JIGAWATTS!!!!!!) to modern rock music. They jez continues to draw musical influences from a wide array of current and classic artists (some of them vewwy, vewwy old and wise---like Yoda). BC the boyz are equally at home on stage(lounge chair, good book, a stick a martini-----HA!) and in the studio. There ya go. NOW MY NEW FRIENDS, add this CD to your collection find out WHERE WHEN these boyz are playing next and be there...or.....T square...something like that....dunno. Love to have you drop in..... Reeveaaaalllllllyyyyyyyy!!!! BC-----over out!!! WRITE ME @ priestsongs@yahoo yakkity yak
