Details: Wendy Lee is a very seasoned performer, singer, songwriter, musician who never stops coming up with new ideas for writing/performing. An avid listener of today's music, she keeps herself fresh with renditions that appeal to all audiences, young or old. Her unique and very polished vocals have a personal feel that grabs even the most casual listener. She has it all with her strength, power and control, coupled with her ability to manipulate her voice to utter soft, sensual tones as well! "END OF THE LIES" is Wendy Lee's third project of all original music. There are absolutely no repeats in any of these CDs. This one, unlike the others, is a very clean and simple offering of crystal clear vocals with her own guitar back-up, and accompanying bass. Her previous two CDs, "SEE ME AGAIN", and "THIS TIME", are both full-production efforts comprised of some of the most talented back-up players in the great Northwest. Each of them is more than worth owning and listening to.
