Ryan, the red dragon, is sitting up in a tree when another dragon passes by. He's shy at first and tries to hide, but the other dragon sees him anyway. While Ryan asks if he knows much about flying, the second dragon spreads his wings and soars into the air. Ryan admits that he doesn't know how to fly because he's never really tried. But after seeing his new friend airborne, Ryan's determined to learn. The Red Dragon Ryan Learns How to Fly is an engaging story that helps children learn the importance of practicing to achieve their goals. Read it with your little dragon! -- Leonard Ericks resides in San Jose, Costa Rica where he teaches art to elementary school children. This is his second book; the first, Things We Should All Know About Dragons, is also available. -- Publisher's website:
