Instrumental guitar rock that combines the soulful and emotional playing of Joe Satriani with the bizzare moments of Buckethead or Bumblefoot thrown in for good measure. 7 MP3 Songs ROCK: Instrumental Rock, METAL: Alternative Metal Details: Do you want build your own guitar? I wanted to make my own guitar because I couldn't find exactly what I wanted. On this Enhanced CD (Both Mac and PC compatible) I show you how I built three guitars and how I modified a fourth. My new Enhanced CD, over a year in the making, is the first of its kind! It will guide you through several guitar builds that you can use to learn to build your very own guitar. On this CD I will show you: 1. The materials used for each step of the guitar build. 2. The pitfalls I encounter. I make the mistake so you don't have to! 3. The tools and products I use for each step. Everything clearly shown to you from rubberbands to the type of glue to the kind of saw or hammer that I use. 4. Finishing guitars with paper, lacquer, polyurethane, both spray and brush applications. 5. Assembly of each guitar to create the finished product. 6. And much more! Part 1 of controlFREAK is a collection of new songs played on the guitars that I built. Each song was written to squeeze every possible type of sound from those guitars. It's also a journey through a world where mind controlling robots reprogram your mind through the music on the CD - and what could more fun than that! :) 1. Destroy Puny Human 2. Thunderhead 3. Sulciforme Groove 4. The Effects Of Caffeine 5. Ready To Rip 6. Robot Dreams 7. Kawarau Bungy Part 2, the Enhanced portion of the controlFREAK CD, features all the build details for the guitars used on the audio portion of the CD. Mac and PC compatible. 1. Creating a Custom Logo 2. Replacing a Guitar Neck 3. Customizing a Guitar Kit 4. Building a Guitar Body 5. Building a Guitar Body and Neck (over 40 minutes of video!) What people are saying about control FREAK: "Captures the sound of Joe Satriani back when he was interesting even better than he did at the time!" "It's a fantastic achievement!" - Adrian Clark, Guitarist magazine "It is a double feature CD which is

a must have." "He doesn't hold back either... You will have a much better understanding how the home shop guitar building process works and get an idea or two that you will want to try... if he makes a mistake or has a problem it is in there and you see how he works around it." "Truly a one of a kind worlds first which is both entertaining and educational and costs way below what any other CD (if anyone dares to try such a complicated task) would cost at market anywhere else." "Final word 'excellent bro!' " - Brian Calvert, ProjectGuitar.com "Your CD is a masterpiece!" - Jamie Smith, Fan in Pembrokeshire Wales
