"Tales of the Flamenco Surfer" contains the absolute finest flamenco guitar work you will ever hear nestled into a Classic Instrumental Surf style that sounds like the music genre that was always supposed to be. This is as good as it gets. 9 MP3 Songs LATIN: Flamenco, ROCK: Surf Rock Details: Chris Brian Gussa grew up in the San Diego area with two passions, playing guitar and surfing. (Both south and north of the border) Chris's masterful Flamenco lead work on the acoustic is nestled into the "wettest" and most island like Surf-rock sound you could imagine! Fully produced with Latin rhythm using piano, bass, marimba, bongos, shakers, Brazilian Rosewood sticks etc. This is truly some of the most beautiful music you will ever hear! Says Chris, "I was so blessed by hearing the beautiful Spanish Flamenco Guitar styles from Mexican musicians and surfing in the beautiful Pacific Ocean that it became part of me. These Images have never been more alive to me and they have definitely entered into my music." So then with the help of are imaginations, the Flamenco Surfer, who tells his tales without words, paints a picture for us reminding us of the warm Santa Ana Winds which shaped the beautiful tall glassy waves and of the days when boards were 10 feet long and of the time when you were riding the waves like a King into battle and there was no turning back. And of the nights around the fire with the sound of surf and that stranger that asked in broken English to borrow your guitar for a minute and played like you never heard before. It can all be there for you, just get this CD! This music is available for film production and other licensing. Please call for details. 520 586 7955
