Experimental electronica duo that combines a band mentality through electronic experimentation. Distinguishing their sound by adopting a wide range of musical influences, Discuss delivers a moody sound that you can still "bob your head to" 11 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Trip Hop Details: A collaboration between Andres Ortiz (Eko Farm, Exp. Lab, and Hippo) and Evan Wood(player piano and planet of sound.) Using a mix of acoustic instruments, synths, samples and anything they can get thier hands on, discuss attempts to make music that is completely their own without shying away from their influences which are inescapable. Andres and Evan started combining their individual efforts in April of 2005 after attempting other endeavors, in order to generate a 'new' sound, which in turn evolved into what you hear now as, discuss...
