Early on Dreey-C began to expose his talents for the arts and at eight he already interpreted the work of other songwriters. In 1998 his parents decided to immigrate to America, where they set residence in Orlando, Florida. In Orlando Dreey-C found the essential atmosphere to develop and polish up his talents, and, at sixteen, after writing his first songs, recorded his first in-studio video. Dreey-C's expressive musical performances are heightened by his ability to play piano and produce music. In 2002, confident and with a strong desire to perform in public, Dreey-C began performing for his fellow students. It was in 2004 that he exclusively devoted his life to the creation of music. Dreey-C would enter the studio in his home and would compose until sunrise. His songs were born naturally and soon his first English album, with thirteen songs, was complete. In 2005 Dreey-C decided to compose in his mother tongue, where a thirteen-song album in Portuguese was unleashed. Deciding to compose again in English, Dreey-C dedicated the beginning of 2006 to work on his second fourteen-song English album that will soon be released. Over the past few years Dreey-C has dedicated his life exclusively to studying music and singing lessons, preparing for his upcoming performances in the U.S., Brazil and throughout Europe. As of now he is in the final stages of organizing his performances for his Fall Tour.
