Sound rooted in early 80's hardcore punk 16 MP3 Songs ROCK: Punk, ROCK: Modern Rock Details: "Rowdy, fast, and loud punk rock with a powerful 80's style of hard punk action, that gives off a DR. KNOW, AMERICAN HC (band), FEAR, NERVE AGENTS feel of craziness. " Toxic Flyer "this is hardcore for people that wear all black. You don't have to worry about blood and spilled whiskey stains at shows. They sound a bit dangerous and i can see my chickenmake self at the edge of the pit while bodies fly by." -MAXIMUMROCKNROLL Some solid hardcore here. Sonically, they remind me a little of the Dwarves, although so far as I can tell, they don't share lyrical content with that band. The beats are relatively fast and the band is tight, which almost always makes for a good listen. -Razorcake Raging, incendiary US Punk which is a throw back to the early 80s that the Punks on Quincy would listen to.-GADGIE (UK) "MISFITSy style vocals overlaid onto what I would call a mid 80s Mystic Records sound." -Hit List "the singer is throaty and weird sounding which sets them apart from most punk bands"-100 Punks
